MESSAGE FROM THE DIRECTOR

This SUMMER SCHOOL is a really great opportunity for those who aspire to know Latin America; its varied themes and challenges, its history, culture and social development, as well as taking a dip in the Spanish language world in order to obtain a better understanding of this part of the world.

You will come to Chile, a dynamic society, commercially open, but still with lags and contrasts. You are also coming to Universidad de Santiago ; a leading university in Chile, which is closely connected with its economic and social environment.

A proper reputation in higher education, security and climate variety are the factors that have allowed Chile and the University of Santiago to be in the top rankings of internationalization. A rich discussion on public policies will accompany your stay in these three weeks in Chile, in this way you will have a more complex, plural and authentic vision of this distant country called Chile.

We invite you to join this SUMMER SCHOOL

Dr. Francisco Castañeda
Head of Summer School
